

Record revenue and more than 23% profit increase in the first nine months – guidance confirmed

Second-strongest quarter in company history with more than 19% EBT margin – despite significant macroeconomic challenges in Europe and the U.S.

“SIXT has once again achieved profitable growth in the first nine months despite a challenging macroeconomic environment: Revenue increased by around 8% (adjusted for USD exchange rate effects by 9%), while earnings before taxes (EBT) rose by more than 23%. Our success is based on targeted investments in product, technology, marketing, sales, our branch network, and thus in our entire customer experience. We are committed to customer satisfaction and proud of our performance in the J.D. Power 2025 North America Rental Car Satisfaction Study. Additionally, we have further optimized our fleet utilization. Looking ahead to 2026, with regard to our current planning process, we remain committed to our strategy of maintaining a tightly managed fleet that operates inside the demand.”
